

Breeding / Stud Agreement

CASH ONLY FOR STUD FEE! NO CHECKS OR MONEY ORDERS OF ANY KIND!!!

I, (Kristina Jordan / Jordan Family Kennels, Treasures), agree to breed you're female canine with our stud male. When your female is in estrus, (standing heat). Day one of breeding: You will bring your female to our home, and wait while the two dogs mate naturally. If your female is in standing heat it will only take a few minutes. Then you will need to bring her back on day three and day five of her receptive, (standing heat) week. Only one breeding is needed if she is really ready, but you can come back for an additional 2 more breedings if you desire during her week of standing heat. If female is not receptive to the male and is not in standing heat, or if breeding results in only one puppy an additional breeding would be free of charge. Payment/ stud fee is \$800 - \$1600 and or pick of litter as stated below. If female is to be left at our home for a few days there may or may not be an additional boarding fee, so ask if you need your female to stay at our home. By signing this contract the female dog's owner agrees that Jordan Family Treasures and Kristina and Robert Jordan are not liable in any way for the female dog while it is at the Jordan family home / property, in the case of injury of any kind or if dog runs away. The dog owner is liable for any damage their dog creates to property or injury to other dogs or people at any time. The Jordan's will not pay for vet bills for any reason of the dog that does not belong to them and will not replace a dog if any injury accure. The owner of the dog is responsible for their dog 100% while the dog is at the Jordan's home in the owner's presents and or absence. If you do not like this then bring your female for breedings and then take her back home with you after each breeding. Bitch's owner agrees to allow for Kristina Jordan to AI, "Artificial Insemination" the female if she, (Kristina), deems necessary.

If Kristina Jordan chooses Stud Fee that is money: (CASH ONLY PAID BEFORE BREEDING TAKES PLACE):

If we both agree on the money stud fee all money is due before breeding takes place. If you pay the stud fee and your female does not get pregnant after 2 breedings you are eligible for a refund of (\$400) You may also choose, instead of the \$400 refund, to keep breeding your female up to 4 times with our stud, if she continually fails to become pregnant after this time, I would suggest getting your female reproductive testing.

If Kristina Jordan selects payment / fee to be pick of litter:

If we both decide on payment / fee to be pick of litter and only one puppy is born you can choose to pay the money stud fee or pay with that puppy, (if that puppy is healthy). In the case of only one puppy a second breeding will be free. If you select payment / fee to be pick of litter you must agree to the following.

You must have the puppy/puppies registrable with AKC, APRI, UKC, CKC, etc... or a hybrid registry if puppy is a Poodle cross. Puppy must be registered with the registry agreed to by both parties and stated below.

After being weaned from the mother you must have the puppy brought to us, through your own means: Such as you drop the puppy off at our kennel or you pay to transport the puppy to us.

The puppy must have it's first set of shots and be checked by your veterinarian and certified healthy, and also have tail and dew claws cut as breed standard states. Puppy may have No defects of ay kind.

To protect us from fraud you agree to the following:

You will have your bred female checked by your veterinarian at 55 to 60 days gestation to check if any fetuses are present. Just a general check is needed not an x-ray. You can also wait until 65 days and if no puppies arrive then you can take your female to the vet for a check on if she is indeed pregnant or not.

In the event of a puppy's death, or false pregnancy, or no pregnancy you must provide a veterinary statement that this female or dead puppy was checked and was indeed seen to be not pregnant or in the case of a dead puppy, that the puppy is indeed deceased, a necropsy is not needed, just a general professional check to confirm puppy is dead.

INITIALS OF FEMALE'S OWNER: _____

You also agree to send us a copy of your vet statement / bill when you get your puppies' dew claws removed stating how many puppies were in the litter. You will need to provide a copy, or show in person, a copy of your driver's license and monthly bill in your name stating your current address. Please bring proof that your bitch has had all vaccinations required, as well as negative brucellosis test done within the past 30 days..

By signing below you agree to all the terms and conditions of this agreement:
